## **Advisory Board appointment strengthens market reach**

- **Glenn Mescher from Promontory Financial Group first appointment**
- **Advisory Board to guide industry and digital advice on best compliance practice**
- **Global compliance, risk management and governance lead drivers for digital advice**

THE appointment of risk management, governance and technology expert Glenn Mescher to Decimal Software's (ASX: DSX; "Decimal" or "the Company") new Advisory Board brings unparalleled expertise to the company.

The news comes only weeks after senior technology executive Mark Potts joined Decimal as the new non-executive chairman.

The Advisory Board is the first initiative made during Mr Potts' tenure as the company looks to provide expertise on industry disruption and trends while continuing to grow opportunities for its digital advice offering.

"Mr Mescher is highly regarded as having extensive knowledge on global compliance, risk management and governance, which have become the leading drivers for digital financial advice solutions," Mr Potts said.

"As former Executive General Manager for Regulatory Relations, Compliance and Operational Risk, and prior to that CIO at NAB, he brings strategic counsel, experience and an intimate understanding of the issues that drive digital advice decisions in the industry.

"His proven expertise and insights into new business opportunities will ensure Decimal has optimum market advantage now and into the future.

"Glenn's appointment will add more depth to our already deep compliance framework that provides our customers with confidence and enables sustainable growth of the company."

Mr Mescher, who works with global financial services consulting firm Promontory Financial Group and also sits on the sub board committees for several non-for-profit organisations including the Red Cross and Victorian State Library, said financial advice in Australia was coming under increasing scrutiny.

"The ability to record and report advice will be paramount for financial organisations to be compliant," Mr Mescher said.

"A really strong capability is the compliance structure that Decimal has built into its digital advice platform. Banks, superannuation companies and non-bank financial institutions offering advice now have access to technology that provides the transparency, audit and control required to manage compliance at a fraction of the time and cost of manual systems.

"The outcome of that is an improved risk profile and ultimately, a higher level of trust with customers."

Mr Mescher's appointment is the first of several that Decimal expects to announce in the near future.

## Glenn Mescher Biography

Currently an advisor to global risk management consulting firm, Promontory, Glenn Mescher has over 45 years' experience in the IT industry across the financial services and telecommunication sectors, including as Executive GM for Regulatory Relations, Compliance, and Operational Risk, and CIO at NAB.

Prior to joining NAB, Mr. Mescher was Executive GM for Operations and Networks at Telstra. He also holds a number of Board positions in the government and corporate sectors and was previously a non-executive director of NAB subsidiary Great Western Bank.

### About Decimal

Decimal is an Australian based company, which has developed the world's first omni-channel, cloud based automated digital advice platform designed to operate with any existing product. The platform, which includes embedded compliance features, enables enterprises to provide consumer-driven automated financial advice and execution to the mass consumer market with global application.

Prior to now this has not been viable or technically possible, providing Decimal with a first mover advantage. Decimal partners with Financial Institutions of all sizes including banks, superfunds, credit unions, insurers, mortgage brokers and dealer groups to enable the execution of Financial Service advice via a seamless omni-channel solution – [www.decimal.com.au](http://www.decimal.com.au).
